1. Software requirement:

Java1.7 or more

Maven 4.0

2. Steps to follow to run the program

1. **Assginment 5**

Download all the files from git repository.

https://github.com/ba1044/Assignment5

and keep it in folder name (Assignment5).

For e.g: D:/ Assignment5

2. **Build Maven**:

Open a terminal in the location where Assignment4 was installed. There should be a file within Assignment4/ named pom.xml. This file will allow you to build the project.

Run the command:

mvn package

This will build the project as specified within the pom.xml file.

3. **To run program, type the following command.**

From within Assignment5/ run command:

java -jar target/Assignment5-Team1-0.0.1-SNAPSHOT-jar-withdependencies.jar
